Principal's Comment:

November is a critical learning month for all our students. It is the final push for achievement and progress before the end of the year. It is vitally important that you share in the learning process and continue to be learning partners with your children at home. Keep reading as frequently as you can, reading with and reading to your children. Continue to reinforce the basic addition, subtraction and times tables facts, these then become second nature to the children so they can concentrate on solving problems and not working out facts. Take time to talk to your classroom teachers to discover how you can help at home.
