

TE POI SCHOOL LOCKDOWN NEWSLETTER

Thursday 7th May

Alert Level 2 possibilities for Te Poi School.

We are waiting on further details around what Alert Level 2 will look like for schools. We may need to survey families to find out who is starting work, and when, so we can have our classrooms ready for action for when parents are returning back to work. As soon as the details are sorted out we will be contacting you all with what this next stage of the Covid-19 journey will be for our students.

Decision Day – Monday 11th 1pm

We have started to put systems in place in readiness for Alert Level 2.

We will keep you informed of what will happen for our school after the decision has been announced.

Home Learning

Keep it simple
Daily reading, maths facts
and a bit of writing.
Get out and enjoy the
weather while it lasts.

An explanation regarding devices and those surveys. The information gathered around devices in homes was for the Ministry of Education. Some schools have sent out school iPads, but as a Board we made the decision not to send out school devices. The main reason being we do not have enough devices to send out one to each family that needed one.

Stay safe, be kind and enjoy your time at home, it will end all too soon. Whaea Linda
